

Miscellaneous Tower Accessories

Cable Fall Protection System

(Ladder Mount Design)

- OSHA compliant, ANSI & CSA certified, CE certified in Europe.
- Slider operates on highest quality, 3/8" diameter, 7x19 strand, galvanized aeronautic cable. Also operates on 5/16" diameter.
- Smooth slider (sleeve) that reduces "snags" during descent, thereby helping to overcome "free climbing."
- Slider is made entirely of high strength stainless steel, with all stainless steel components.
- Slider features *SafetyLok™* feature which prevents upside-down installation on cable.
- Slider easily installed with one hand.
- Factory-installed termination at top of cable eliminates installer liability. Easier installation too!
- *Quik-tension™* feature makes cable tensioning easy and fast.
- Mounts to ladder rungs up to 1 1/4" OD.
- Intermediate cable guides provided every 25' (7.62m).
- Unique 2-in-1 top bracket and energy absorber.
- Full line of retrofit accessories available for older towers that have no climbing ladders.

Pre-terminated Cable
