### Climbing Ladder Bracket Kits

Trylon TSF's Climbing Ladder Brackets are ideal for most types of communication towers that require a climbing ladder.

They are offered mainly for external climbing ladders, but there is the option of installing to the inside of large monopoles. Depending on the external bracket chosen, they are capable of attaching up to 11" rounds or 8" (60° or 90°) angles.

Optionally kitted are boomerang tx line brackets, which turn this simple ladder bracket into a versatile and cost effective carrier system capable of holding up to 24 runs of 3/4" or 7/16" holes.

All material is hot dip galvanized.
