Large Pole Backing Kits

The Large Pole Backing Kits extends Trylon's offerings of large backing assemblies on page 10 to include larger pole diameters ranging from 11" to 18" in size.

Kits are available in standard 'A', 'B', and Universal kits like the current large backing assemblies, along with additional kits with one u-bolt for simple pipe additions.

LARGE POLE BACKING 'A' ASSEMBLY

This option comes with two 1/2" x 24" threaded rods and two extra large slotted channels. This assembly can join to other plates with 9/16" holes ranging from 2 7/8" to 5 5/8" on centre.

LARGE POLE BACKING 'B' ASSEMBLY

Similar to option 'A', but comes complete with two extra 1/2" x 1 1/2" bolts for mounting to standard Trylon TSF mounts. Otherwise, the kit has the same capability as kit 'A' but limited to 3/4" thick plates.

UNIVERSAL POLE BACKING ASSEMBLY

This assembly allows the vertical connection of two plates, even if they are not vertical to each other, and are most practical for tapered tower legs or when site information is limited. The package comes standard with two extra large slotted channels, and two 1/2" x 24" and two 1/2" x 8" threaded rods. This assembly can fit mating plates up to 3/4" thick and with holes ranging from 2 3/8" to 5 3/8" on centre. This kit will fit round members from 11" to 18", and has up to 4" lateral panning capability.

LARGE POLE KIT WITH U-BOLT

This kit is ideal for mounting a standard antenna pipe (2 3/8", 2 7/8", 3 1/2", or 4 1/2") to a large pole ranging from 11" to 18" in diameter. The kit comes with two 1/2" x 24" threaded rods, two extra large slotted channels, and one u-bolt.

Kit includes two 1/2" x 24" rods, two 1/2" x 1 1/2" bolts and two channels
