Pipe Mount Kits

Trylon TSF's Pipe Mount Kits are offered in a full array of alternatives that cover almost every antenna installation possibility. These kits are ideal for mounting to other kits (such as t-frames, wireless frames and standoffs) to create additional antenna capacity.

Each kit comes with one pipe and either a single or double crossover kit. The pipes are standardized in either 2 3/8", 3 1/2", or 4 1/2" OD pipe sizes and in 2' incremental lengths. While the crossover kits are matched to both the included pipe and connecting horizontal pipe size. Please see the accompanying figure to further understand our numbering system.

All material hot dip galvanized for maximum protection.
